

27th August 1926]

A.—The rates of grazing fees in the Bellary Forest division are 8 annas per cow unit in the Harpanahalli range except in Toganikatta reserve and 3 annas a cow unit in the other reserves.

A statement^a showing the revenue and expenditure for 1925–26 in respect of the reserves mainly used for grazing which have not yet been handed over to panchayats is appended. In the case of reserves under panchayat management the panchayats themselves fix the grazing fee, collect revenue and regulate expenditure.

Mr. A. RANGANATHA MUDALIYAR :—“ May I request the hon. the Home Member to furnish information, similar to that contained in the appendix to this answer, as regards the other reserves also ? ”

The hon. Khan Bahadur MUHAMMAD USMAN SAHIB Bahadur :—“ I am prepared to consider the suggestion.”

Working of forests in the Presidency for industrial purposes.

* 2357 Q.—**Mr. Chavadi K. SUBRAHMANYA PILLAI :** Will the hon. the Home Member be pleased to state whether the Government have collected all ‘ relevant information ’ promised in answer to question No. 1054, dated 21st October 1924, in regard to the working of any other forest in the Presidency in the manner in which the Papanasam forests are being worked for industrial purposes and with what result ?

A.—Papanasam forests are not worked now for industrial purposes nor are any other forest being so worked except the Chenat Nayar forest the conditions of which are quite different from those of Papanasam. Information collected from the Philippines and Java as bearing on the development of these forests points strongly to the fact that such areas may be intensively worked to the benefit of the forests and the profit of the Government.

Mr. Chavadi K. SUBRAHMANYA PILLAI :—“ May I know if trees are being cut in the Papanasam forests ? ”

The hon. Khan Bahadur MUHAMMAD USMAN SAHIB Bahadur :—“ I do not think so, Sir.”
